| Product | Subscription Length (in months)* | WPF & Silverlight | Source Code <small>(also included in the source code of Gold and Premium packages)</small> |
|-----------------|----------------------------------|-------------------|---|
| Gauges Controls | N/A | 0 | 500 |

All prices are in USD

*Subscription length indicates the time during which you will receive unlimited technical support and updates. Subscription expiration ends these services. You can extend them by purchasing a subscription renewal.

Offline (manual) activation service fee (when the subscription has expired): 300 USD/activation.

| Benefits of the Source Code subscription: |
|--|
| <ul style="list-style-type: none"> • Full C# source code of the libraries. No inaccessible C++ parts. • Modify the library and build a custom version. • Optimize performance of your application when running without code obfuscation. • See clearly where CPU and GPU power are spent. • Instant access to source code, no need for escrow service. • Over 1 million of rows of code, including around 5000 properties and public methods. • Full source code debugging and availability to get support with code changes. |

| Terms |
|---|
| <p>1) Renewals:</p> <ul style="list-style-type: none"> • Renewal for 12 months = 50% of the 12-month subscription price of this product* • Renewal for 24 months = 50% of the 24-month subscription price of this product* |
| <p>2) Team Discounts: We offer progressive discounts for teams of 4 and more developers. Please contact sales@lightningchart.com for more information.</p> |
| <p>3) Source Code: In case of purchasing a Source Code, it is to be obtained for each purchased license. Note: LightningChart Gold & Platinum Source Codes also include Source Code for Arction Gauges.</p> |
| <p>4) Upgrades: Upgrading the subscription costs the price difference between higher tier and the subscription you currently have. For more information please contact sales.</p> |
| <p>5) Floating license: Can be installed and used by several developers on multiple machines. One developer can use a floating license at a time. This license costs 2.5 x equivalent single developer license price. Floating license needs internet connection to Arction licensing server.**</p> <p>*Based on the currently effective price list at the moment of renewing the license.</p> <p>**contact sales@lightningchart.com to check the availability of a customer-side floating license service.</p> |

If you have any questions about custom licensing terms, e.g., for non-commercial license uses, please contact sales@lightningchart.com.
